- HTML 5.0, CSS 3.0
- jQuery, JavaScript
- MySQL
- Python

RELEVANT SKILLS

- Good Communication
- Quick learner
- Ability To Work Independently
- Problem solving

LANGUAGE

- Tamil
- English

PROJECTS

Charity Web Application

Websites assist nonprofits in sharing their organization's narrative and showcasing their effectiveness. Websites guide individuals to services and serve as a centralized hub for resources.

Sales Prediction For Newly Launched Mobiles Using ML

The research examines different factors like brand, price, and features to forecast sales. The paper employs two primary machine learning algorithms, K-Mean clustering and Linear Regression, to attain the highest prediction accuracy.
